Safety Data Sheet according to Regulation (EU) 2015/830

Nitrous oxide

Date of issue: 28/12/2010 SDS reference: 2010491

Supersedes: 01/08/2019

Revision date: 30/05/2020

Version: 2.0

Danger

Air Liquide

SECTION 1: Identification of the substance/mixture and of the company/undertaking

: Nitrous oxide
: 2010491
: Nitrous oxide
CAS-No. : 10024-97-2
EC-No. : 233-032-0
EC Index-No. :
: 01-2119970538-25
: N2O
bstance or mixture and uses advised against
: Industrial and professional. Perform risk assessment prior to use.
Test gas/Calibration gas.
Chemical reaction / Synthesis.
Aerosol propellant.
Use for manufacture of electronic/photovoltaic components.
Laboratory use.
Food applications.
Contact supplier for more information on uses.
Do not inhale product on purpose because of the risk of asphyxiation.
ty data sheet
: AIR LIQUIDE SINGAPORE PTE LTD HEAD OFFICE : 2 VENTURE DRIVE, VISION EXCHANGE, #22-28, SINGAPORE 608526 T +65 6265 3788 <u>https://industry.airliquide.sg/resources/safety-data-sheets-sds</u> Sg-info@airliquide.com

1.4. Emergency telephone number

Emergency telephone number

: +65 6265 3788, +65 9619 9229 (After Office Hour)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]			
Physical hazards	Oxidising Gases, Category 1	H270	
	Gases under pressure : Liquefied gas	H280	
Health hazards	Specific target organ toxicity — Single exposure, Category 3, Narcosis	H336	

2.2. Label elements

SDS Ref.: 2010491

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP)	
	GHS03 GHS04 GHS07
Signal word (CLP)	: Danger
Hazard statements (CLP)	 H270 - May cause or intensify fire; oxidiser. H280 - Contains gas under pressure; may explode if heated. H336 - May cause drowsiness or dizziness.
Precautionary statements (CLP)	
	- Prevention : P220 - Keep away from clothing and other combustible materials.
	P244 - Keep valves and fittings free from oil and grease.
	P260 - Do not breathe gas, vapours.
	- Response : P304+P340+P315 - IF INHALED : Remove person to fresh air and keep comfortable for breathing. Get immediate medical advice.
	P370+P376 - In case of fire: stop leak if safe to do so.
	- Storage : P403 - Store in a well-ventilated place.

2.3. Other hazards

: Contact with liquid may cause cold burns/frostbite.

SECTION 3: Composition/information on ingredients

3.1. Substances

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Nitrous oxide	(CAS-No.) 10024-97-2 (EC-No.) 233-032-0 (EC Index-No.) (Registration-No.) 01-2119970538-25	100	Ox. Gas 1, H270 Press. Gas (Liq.), H280 STOT SE 3, H336

Contains no other components or impurities which will influence the classification of the product.

3.2. Mixtures : Not applicable

SECTION 4: First aid measures

4.1. Description of first aid measures

4.0 Mast immentant summtans and effects beth	a courte and delayed
- Ingestion :	Ingestion is not considered a potential route of exposure.
- Eye contact :	Immediately flush eyes thoroughly with water for at least 15 minutes.
- Skin contact :	In case of frostbite spray with water for at least 15 minutes. Apply a sterile dressing. Obtain medical assistance.
- Inhalation :	Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.

$\underline{\textbf{4.2. Most important symptoms and effects, both acute and delayed}$

 In low concentrations may cause narcotic effects. Symptoms may include dizziness, headache, nausea and loss of co-ordination.
 Refer to section 11.

4.3. Indication of any immediate medical attention and special treatment needed

: Obtain medical assistance.

SECTION 5: Firefighting measures

5.1. Extinguishing media : Water spray or fog. - Suitable extinguishing media : Do not use water jet to extinguish. - Unsuitable extinguishing media : Do not use water jet to extinguish. 5.2. Special hazards arising from the substance or mixture Specific hazards : Supports combustion. Exposure to fire may cause containers to rupture/explode. Hazardous combustion products : Nitric oxide/nitrogen dioxide.

5.3. Advice for firefighters	
Specific methods	: Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.
	If possible, stop flow of product.
	Use water spray or fog to knock down fire fumes if possible.
	Move containers away from the fire area if this can be done without risk.
Special protective equipment for fire fighters	 Wear gas tight chemically protective clothing in combination with self contained breathing apparatus.
	Standard EN 943-2: Protective clothing against liquid and gaseous chemicals, aerosols and solid particles. Gas-tight chemical protective suits for emergency teams.
	Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

- : Try to stop release.
 - Evacuate area.

Monitor concentration of released product.

Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.

- Eliminate ignition sources.
- Ensure adequate air ventilation.
- Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous.
- Act in accordance with local emergency plan.
- Stay upwind.

6.2. Environmental precautions

: Try to stop release.

6.3. Methods and material for containment and cleaning up

: Keep area evacuated and free from ignition sources until any spilled liquid has evaporated (ground free from frost).

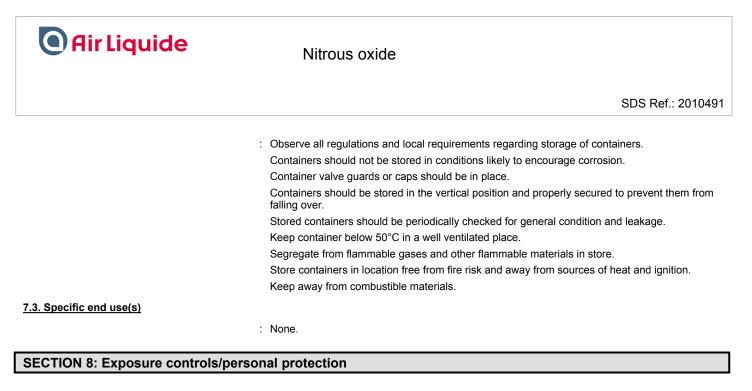

6.4. Reference to other sections

: See also sections 8 and 13.

7.1 Drocoutions for asta har aller	
7.1. Precautions for safe handling	
Safe use of the product	: Do not breathe gas.
	Avoid release of product into work area.
	For more guidance on safe use, refer to the EIGA Doc.176 "Safe practices for storage and handling of Nitrous oxide", downloadable at http://www.eiga.eu." and consult your supplier.
	Temperatures above 150°C (300°F) shall be avoided by all practical means, to reduce the likelihood of an explosive decomposition of the nitrous oxide.
	Clean all surfaces in direct contact with nitrous oxide as for oxygen service.
	Nitrous oxide transfer pumps shall be provided with an interlock to prevent dry running.
	Use self-limiting heating devices. Direct contact electric immersion heaters are not allowed.
	The product must be handled in accordance with good industrial hygiene and safety procedures.
	Only experienced and properly instructed persons should handle gases under pressure.
	Consider pressure relief device(s) in gas installations.
	Ensure the complete gas system was (or is regularily) checked for leaks before use.
	Do not smoke while handling product.
	Keep equipment free from oil and grease. For more guidance, refer to the EIGA Doc. 33 - Cleaning of Equipment for Oxygen Service downloadable at http://www.eiga.eu.
	Use no oil or grease.
	Use only properly specified equipment which is suitable for this product, its supply pressure a temperature. Contact your gas supplier if in doubt.
	Avoid suck back of water, acid and alkalis.
Safe handling of the gas receptacle	: Refer to supplier's container handling instructions.
	Do not allow backfeed into the container.
	Protect cylinders from physical damage; do not drag, roll, slide or drop.
	When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designer to transport cylinders.
	Leave valve protection caps in place until the container has been secured against either a wa or bench or placed in a container stand and is ready for use.
	If user experiences any difficulty operating cylinder valve discontinue use and contact supplie
	Never attempt to repair or modify container valves or safety relief devices.
	Damaged valves should be reported immediately to the supplier.
	Keep container valve outlets clean and free from contaminants particularly oil and water.
	Replace valve outlet caps or plugs and container caps where supplied as soon as container i disconnected from equipment.
	Close container valve after each use and when empty, even if still connected to equipment.
	Never attempt to transfer gases from one cylinder/container to another.
	Never use direct flame or electrical heating devices to raise the pressure of a container.
	Do not remove or deface labels provided by the supplier for the identification of the cylinder contents.
	Suck back of water into the container must be prevented.
	Open valve slowly to avoid pressure shock.

7.2. Conditions for safe storage, including any incompatibilities

8.1. Control parameters

OEL : Occupational Exp		
ACGIH	ACGIH TWA (ppm)	50 ppm
	Remark (ACGIH)	CNS impair; hematologic eff
	Regulatory reference	ACGIH 2017
Nitrous oxide (10024-9		
DNEL: Derived no effect		100
Long-term - systemic	effects, innalation	183 mg/m ³
PNEC (Predicted No-Ef	fect Concentration) : None esta	ablished.
8.2. Exposure controls	<u>i</u>	
8.2.1. Appropriate eng	ineering controls	
	: Provide ade	equate general and local exhaust ventilation.
	Product to I	be handled in a closed system.
	Systems ur	der pressure should be regularily checked for leakages.
	Ensure exp	osure is below occupational exposure limits (where available).
	Gas detecto	ors should be used when oxidising gases may be released.
	Consider th	e use of a work permit system e.g. for maintenance activities.
8.2.2. Individual protect	tion measures, e.g. personal protecti	
	related to th following re	ssment should be conducted and documented in each work area to assess the risk he use of the product and to select the PPE that matches the relevant risk. The commendations should be considered: iant to the recommended EN/ISO standards should be selected.
Eye/face protection		es when transfilling or breaking transfer connections. N 166 - Personal eye-protection - specifications.
Skin protection		
- Hand protection	: Wear worki	ng gloves when handling gas containers.
	Standard E	N 388 - Protective gloves against mechanical risk.
	Wear cold i	nsulating gloves when transfilling or breaking transfer connections.
	Standard F	N 511 - Cold insulating gloves.

SDS Ref.: 2010491

- Other	 Consider the use of flame resistant safety clothing. Standard EN ISO 14116 - Limited flame spread materials. Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
Respiratory protection	 Gas filters may be used if all surrounding conditions e.g. type and concentration of the contaminant(s) and duration of use are known. Use gas filters with full face mask, where exposure limits may be exceeded for a short-term period, e.g. connecting or disconnecting containers. Consult respiratory device supplier's product information for the selection of the appropriate device. Gas filters do not protect against oxygen deficiency. Standard EN 14387 - Gas filter(s), combined filter(s) and standard EN136, full face masks . Keep self contained breathing apparatus readily available for emergency use. Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems. Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.
Thermal hazards	: None in addition to the above sections.
8.2.3. Environmental exposure controls	
	: Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Appearance			
 Physi 	ical state at 20°C / 101.3kPa	:	Gas
Colou	ır	:	Colourless.
Odour		:	Sweetish. Poor warning properties at high concentrations.
Odour threshold	b	:	Odour threshold is subjective and inadequate to warn of overexposure.
рН		:	Not applicable for gases and gas mixtures.
Melting point / F	Freezing point	:	-90.81 °C
Boiling point		:	-88.5 °C
Flash point		:	Not applicable for gases and gas mixtures.
Evaporation rate	e	:	Not applicable for gases and gas mixtures.
Flammability (se	olid, gas)	:	Non flammable.
Explosive limits		:	Non flammable.
Vapour pressur	e [20°C]	:	50.8 bar(a)
Vapour pressur	e [50°C]	:	Not applicable.
Vapour density		:	Not applicable.
Relative density	/, liquid (water=1)	:	1.2
Relative density	/, gas (air=1)	:	1.5
Water solubility		:	1500 mg/l
Partition coeffic	ient n-octanol/water (Log Kow)	:	0.4
Auto-ignition ter	mperature	:	Non flammable.
Decomposition	temperature	:	Not applicable.
Viscosity, kinem	natic	:	No reliable data available.
Explosive prope	erties	:	Not applicable.

SDS Ref.: 2010491

Oxidising properties	: Oxidiser.
9.2. Other information	
Molar mass	: 44 g/mol
Critical temperature [°C]	: 36.4 °C
- Coefficient of oxygen equivalency (Ci)	: 0.6
Other data	: Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.

SECTION 10: Stability and reactivity

10.1. Reactivity	
<u></u>	: No reactivity hazard other than the effects described in sub-sections below.
10.2. Chemical stability	
	: Stable under normal conditions.
	At temperatures over 575°C and at atmospheric pressure, nitrous oxide decomposes into nitrogen and oxygen.
	In the presence of catalysts (e.g. halogen products, mercury, nickel, platinum) the rate of decomposition increases and decomposition can occur at even lower temperatures.
	Nitrous oxide dissociation is irreversible and exothermic, leading to a considerable rise in pressure.
10.3. Possibility of hazardous reactions	
	: Violently oxidises organic material.
10.4. Conditions to avoid	
	: Avoid moisture in installation systems.
10.5. Incompatible materials	
	: May react violently with combustible materials.
	May react violently with reducing agents.
	Keep equipment free from oil and grease. For more guidance, refer to the EIGA Doc. 33 - Cleaning of Equipment for Oxygen Service downloadable at http://www.eiga.eu.
	For additional information on compatibility refer to ISO 11114.
10.6. Hazardous decomposition products	
	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity	: Inhalation causes narcotic effects.
LC50 inhalation rat (ppm)	500000 ppm/4h
Skin corrosion/irritation	: No known effects from this product.
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	No known effects from this product.
STOT-single exposure	: May cause drowsiness or dizziness.

STOT-repeated exposure	: At low concentrations:
	Neurologic effect.
	Hemotoxic effect.
Target organ(s)	: Erythrocytes.
	Kidneys.
	liver.
	Central nervous system.
Aspiration hazard	: Not applicable for gases and gas mixtures.

SECTION 12: Ecological information

12.1. Toxicity

Assessment	: No ecological damage caused by this product.
EC50 48h - Daphnia magna [mg/l]	: Study scientifically unjustified.
EC50 72h - Algae [mg/l]	: Study scientifically unjustified.
LC50 96 h - Fish [mg/l]	: Study scientifically unjustified.
12.2. Persistence and degradability	
Assessment	: Not applicable for inorganic products.
	Study scientifically unjustified.
12.3. Bioaccumulative potential	
Assessment	: Not expected to bioaccumulate due to the low log Kow (log Kow < 4).
	Refer to section 9.
<u>12.4. Mobility in soil</u>	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution.
	Partition into soil is unlikely.
12.5. Results of PBT and vPvB assessment	
Assessment	: Not classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	: No known effects from this product.
Effect on the ozone layer	: None.
Global warming potential [CO2=1]	: 298
Effect on global warming	: Contains greenhouse gas(es).
	When discharged in large quantities may contribute to the greenhouse effect.

SECTION 13: Disposal considerations

SDS Ref.: 2010491

13.1. Waste treatment methods	
	Contact supplier if guidance is required.
	Discharge to atmosphere in large quantities should be avoided.
	Do not discharge into any place where its accumulation could be dangerous.
	Ensure that the emission levels from local regulations or operating permits are not exceeded.
	Refer to the EIGA code of practice Doc.30 "Disposal of Gases", downloadable at http://www.eiga.eu for more guidance on suitable disposal methods.
	Return unused product in original cylinder to supplier.
	May be vented to atmosphere in a well ventilated place.
List of hazardous waste codes (from Commission Decision 2000/532/EC as amended)	: 16 05 04 *: Gases in pressure containers (including halons) containing hazardous substances.
13.2. Additional information	
	· External treatment and disposal of waste should comply with applicable local and/or national

: External treatment and disposal of waste should comply with applicable local and/or national regulations.

SECTION 14: Transport information

<u>14.1. UN number</u>		
UN-No.	: 1070	
14.2. UN proper shipping name		
Transport by road/rail (ADR/RID)	¹ NITROUS OXIDE	
Transport by air (ICAO-TI / IATA-DGR)	[:] Nitrous oxide	
Transport by sea (IMDG)	¹ NITROUS OXIDE	
14.3. Transport hazard class(es)		
Labelling	2.2 : Non-flammable, non-toxic gases.	
	5.1 : Oxidizing substances.	
Transport by road/rail (ADR/RID)		
Class	: 2	
Classification code	: 20	
Hazard identification number	: 25	
Tunnel Restriction	: C/E - Tank carriage : Passage forbidden thro carriage : Passage forbidden through tunnel	
Transport by air (ICAO-TI / IATA-DGR)		
Class / Div. (Sub. risk(s))	: 2.2 (5.1)	
Transport by sea (IMDG)		
Class / Div. (Sub. risk(s))	: 2.2 (5.1)	
Emergency Schedule (EmS) - Fire	: F-C	
Emergency Schedule (EmS) - Spillage	: S-W	
14.4. Packing group		
Transport by road/rail (ADR/RID)	: Not applicable	
Transport by air (ICAO-TI / IATA-DGR)	: Not applicable	
Transport by sea (IMDG)	: Not applicable	
AIR LIQUIDE SINGAPORE PTE LTD HEAD OFFICE : 2 VENTURE DRIVE, VISION EXCHANGE, #22-28,	EN (English)	SDS Ref.: 2010491

Air Liquide

Nitrous oxide

SDS Ref.: 2010491

14.5. Environmental hazards	
Transport by road/rail (ADR/RID)	: None.
Transport by air (ICAO-TI / IATA-DGR)	: None.
Transport by sea (IMDG)	: None.
14.6. Special precautions for user	
Packing Instruction(s)	
Transport by road/rail (ADR/RID)	: P200
Transport by air (ICAO-TI / IATA-DGR)	
Passenger and Cargo Aircraft	: 200.
Cargo Aircraft only	: 200.
Transport by sea (IMDG)	: P200
Special transport precautions	: Avoid transport on vehicles where the load space is not separated from the driver's compartment.
	Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency.
	Before transporting product containers:
	- Ensure there is adequate ventilation.
	- Ensure that containers are firmly secured.
	- Ensure cylinder valve is closed and not leaking.
	- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
	- Ensure valve protection device (where provided) is correctly fitted.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

: Not applicable.

SECTION 15: Regulatory information

<u>15.1. Safety, health and environmental regu</u> EU-Regulations	lations/legislation specific for the substance or mixture
Restrictions on use Seveso Directive : 2012/18/EU (Seveso III)	: None. : Covered.
National regulations National legislation	: Ensure all national/local regulations are observed.
15.2. Chemical safety assessment	
	: A CSA has been carried out.
SECTION 16: Other information	

Indication of changes

Revised safety data sheet in accordance with commission regulation (EU) No 2015/830.

:

Abbreviations and acronyms	: ATE - Acute Toxicity Estimate
	CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008
	REACH - Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006
	EINECS - European Inventory of Existing Commercial Chemical Substances
	CAS# - Chemical Abstract Service number
	PPE - Personal Protection Equipment
	LC50 - Lethal Concentration to 50 % of a test population
	RMM - Risk Management Measures
	PBT - Persistent, Bioaccumulative and Toxic
	vPvB - Very Persistent and Very Bioaccumulative
	STOT- SE : Specific Target Organ Toxicity - Single Exposure
	CSA - Chemical Safety Assessment
	EN - European Standard
	UN - United Nations
	ADR - European Agreement concerning the International Carriage of Dangerous Goods by Road
	IATA - International Air Transport Association
	IMDG code - International Maritime Dangerous Goods
	RID - Regulations concerning the International Carriage of Dangerous Goods by Rail WGK - Water Hazard Class
	STOT - RE : Specific Target Organ Toxicity - Repeated Exposure
Training advice	: None.
DISCLAIMER OF LIABILITY	: Before using this product in any new process or experiment, a thorough material compatibility
	and safety study should be carried out.
	Details given in this document are believed to be correct at the time of going to press.
	Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
